DATA SHEET

Mounting Bracket Kit

MBK-07

- This antenna mounting bracket is designed for mounting our Small Cell single sector antennas to metal or wooden poles
- Bracket kit allows the antenna to be tilted upto 20 degrees up and down
- Rugged and weather resistant design
- Bracket fits poles Ø4 inches (Ø10 cm) and greater
- Recommended mounting to steel poles is with metal strapping/banding (not included) and to wooden poles is with either metal strapping/banding or through bolting (not included)

Overview

This adjustable tilt Pole Mounting Bracket is designed for use with CCI's Small Cell single sector antennas. The MBK-07 bracket kit delivers a very stable mounting with the flexibility of ± 20 degrees of up or down tilt. The rugged design supports CCI's antennas while resisting the elements. The bracket is designed to fit utility and street lighting poles with diameters ranging from 4 inches (10 cm) and greater.

CCI antenna brackets are designed and produced to ISO 9001 certification standards for reliability and quality in our state-of-the-art manufacturing facilities.

Applications

- Ideal for antenna mounting to large diameter utility and street lighting poles
