DATA SHEET

Mounting Bracket Kit

MBK-14

- This Dual Axis Tilt Antenna Mounting Bracket is designed for use with specific CCI small panel antennas, to attach to a suitable flat surface
- Design has manual tilt capacity in both planes
- Rugged and weather resistant design
- Bracket has four mounting holes suitable for M10 hardware
- Kit can be converted to a pole mount with the addition of the MBC-07

Overview

This Dual Axis Tilt Antenna Mounting Bracket is designed for use with specific CCI small panel antennas, to attach to a suitable flat surface. The MBK-14 bracket can also be converted to a pole mount, with the use of MBC-07 and can be attached using banding, bolts or U-bolts on poles up to 4" (10 cm) OD. The rugged design supports CCI's antennas while resisting the elements.

CCI antenna brackets are designed and produced to ISO 9001 certification standards for reliability and quality in our state-of-the-art manufacturing facilities.

Applications

- Ideal for mounting the small panel antennas where mechanical tilt is required.
