DATA SHEET

Mounting Bracket Kit

MBK-22

- This two part heavy duty mounting bracket is designed for use with many of CCI's wider and taller antennas
- Bracket kit has a fixed lower bracket and adjustable upper bracket that allows the antenna to be down tilted up to 10 degrees, in 1 degree increments (or up tilted if mounted in reverse)
- Rugged and weather resistant design
- Adjustable clamps fit poles from Ø3 – 5 inches (Ø75 – 127 mm)

Overview

This adjustable tilt Pole Mounting Bracket is designed for use with CCI's MultiPort, Bi-Sector and MultiSector antennas that are 5 feet (1.5m) or taller and wider than other antenna. The MBK-22 bracket kit delivers a very stable mounting and is adjustable from 0 to 10 degrees of down tilt in 1 degree increments. The rugged design supports CCI's taller antennas while resisting the elements. The clamps adjust to fit pole diameters ranging from 3 – 5 inches (75 – 127 mm).

CCI antenna brackets are designed and produced to ISO 9001 certification standards for reliability and quality in our state-of-the-art manufacturing facilities.

Applications

- Ideal for pole mounting in urban settings
